## *FS series* instructions

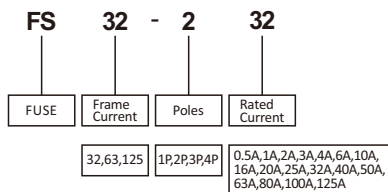

# FS series

## 1. Application range:

FS series is suitable to the switchgear with rated voltage up to 500V, the rated current up to 63A and realize overload, short circuit protection of MCB. According to the IEC60269.

## 2. Model

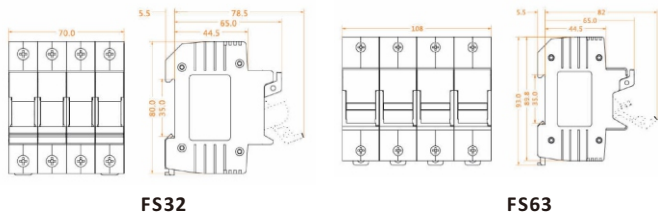

## 3. Technology data

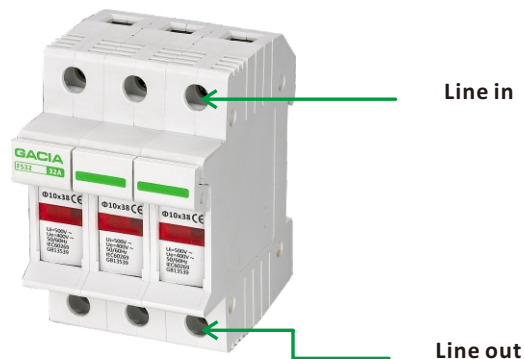

Model	Size of fuse	Rated voltage(V)	Rated ated current(A)	Breaking capacity(KA)
FS32	10X38	500	0.5~25	20
FS63	14X5	1500	2~50	20

## 4. Outline dimension and installation instruction FS32

### 4.1 Outline dimension

## 4.2 installation instruction

## 5. Using&Maintenance

### 5.1 Caution :

5.1.1 The protective feature of FS should be suitable to the overload feature which one is been protected.

5.1.2 The rated current should be suitable to the rated voltage degree, the rated current of fuse holder should be the same or bigger than the fuse.

### 5.2 Maintenance

5.2.1 Please analysis the reason when the fuse burns.

5.2.2 Please keep the fuse holder disconnects in advance when you disassemble the fuse or check goods.
