

Halogen Free Piher Declaration

The undersigned,

based on the information available to us from our raw material suppliers, and analysis made in external laboratories, declares that the family products ref:

N6, PT6, PT10, PTC10, PT15, PTC15.

don't contain any Halogen compounds.

Except for heat stabilised grades which may contain halogen compounds in quantities below 0.3% and halogen containing flame retardant grades.

To the best of our knowledge, our raw material suppliers do not intentionally add the above substances in the manufacture of their products. However, we do not routinely analyse our products for the above substances nor do we require our raw material suppliers to do so.
