Q2Power Products – Commitment to global standards

Compliance is a focal point at Q2Power AG and the foundation supporting “Quality 2 Power Products”.

Understanding standardisation and its corresponding norms is a prerequisite for producing quality products and is reflected in tested and certified products.

We work in excellent cooperation with the most renowned state-approved test laboratories (Notified Bodies) in order to test our products under the latest international conditions and requirements.

We achieve lasting quality and competitive pricing through our close cooperation with local and international standardisation bodies and committees, which enables us to anticipate and take account of any possible future product requirements.

We shall be very pleased to present you with our in-depth knowledge and provide you with a sample of approved certificates and test reports.

For the product of your choice, you can request the “DoC and Certification Pack” today, which will be sent to you immediately.

We kindly ask you to understand that we can only provide you with our full test reports following a non-disclosure agreement, since they contain valuable and sensitive company information.

If you have any further questions regarding Q2P, please do not hesitate to contact us at your convenience.
